Free passage	10 mm
Discharge	G 1 1/2
Power cable	10 m | 6 x 1.00 mm²
Net weight	16.9 kg
Protection / maximum immersion	IP68 / 7 m
Float switch	Included
Cooling jacket	Without

Use and selection

For clean water and wastewater without faecal matter, with solids up to 10 mm. Liquid temperature up to 40 °C in continuous operation; up to 90 °C for a maximum of 3 minutes. Three-phase version with float switch. Float cable: 10 m, 3 x 1.00 mm². Confirm the correct electrical connection and protection for the installation.

Check the duty point against the KSB performance curves and confirm suitability for the installation before ordering. Do not select this version for seawater or aggressive liquids. Shipping weight including packaging to be confirmed.
